THE PREFERENCE OF IRISHMEN. INT TELEGRAPH TO THE TRIBUNE.

PITTSBURG, June 7.-There is a disposition on the part of many Irish American Democrats of this city to go in a body to support Blaine and there is already on foot a quiet movement to form an Irish Republican club. Ex-Conncilman Peter McGhee, of what is known as the "Bleody " Fifth Ward, a Democratic stronghold, is one of the leaders of the Democratic stronghold, is one of the leaders of the movement. One enthusiastic Irish Democrat said: "For many years Blaine has been hounded on account of his mother's religion. I intend to support him, as I admire the man for his manliness under persecution." The Governor of Maine addressed an immense crowd of citizens at the Union Depot this evening immediately upon the arrival of the 7:40 train from Chicago. Fred Douglas, ex-Governor Hartranit, John Stewart, and Mr. Cooper, chairman of the State Committee, were on board the same train.

The enthusiasm all along the line satisfied them that the ticket was an excellent choice. At Alliance, Onic, a tremendous crowd awaited them, and Governor Dingley, of Mahe, and Fred Pouglass made speeches. To link Trances: correspondent Fred Douglass said: "It will be a winning ticket. Logan's name will be sufficient to secure the colored vote, while Histor's name is one for enthusiasm all over the country."

The train arrived in Pittsburg just one hour late, consequently there were no speeches, the delerates barely sequently there were no speeches, the delerates barely thaving time for lunch preparatory to taking the train for the east. State Chairman (Cooper, of Pennsylvania, stopped eating a saniwisch long enough to say that "Chris" Magee of Pittsburg will support Blaine just as warmly as if the nominee had been Arthur. Chris told use himself just before we left Unicago and you can rely on it."

APPROVAL IN THE SOUTH.

NEW-ORLEANS, June 7 .- One hundred guns were fired here this afternoon in honor of Blaine and Logan.

JACKSON, Miss., June 7.—The nomination of Blaine and Logan was received with enthusiasm here by the Repub-Beans and independents. A ratification meeting is called for Monday night as a preliminary step toward thorough organization for an aggressive campaign.

WILLIAMS STUDENTS AROUSED.

WILLIAMSTOWN, Mass., June 7. - Blaine's commation at Chicago was received with great enthusing a large procession was formed, which marched over the campus and through the buildings, amid cheers and singing. In response to calls speeches were made by President Carter, Dr. Mark Hopkins and Professor Hewitt. Williams strongly favors the friend and Secre-tary of State of Gardeld, her greatest alumnus.

A SALVATION ARMY CORPS ARRESTED.

FINED BY A POLICE JUDGE IN CLEVELAND-REIN-FORGEMENTS EXPECTED.

INT TELEGRAPH TO THE TRIBUNE. CLEVELAND, June 7.-For several months the Salvation Army has had its headquarters in the Church at Onio and Brownell sta., where nightly meetings of the most "hallength" kind have been held. Frequent complaints have been made that boys and girls were influenced by excitement to leave their homes and wander away with the army, and nights have been made hideous by the whoops and yells of the crowd, until the people were disgusted with their actions. Last night, Sergeant Johnson, Detective Humphrey and several patrolmen arrested twenty-six of the army as they were going down Pros-

them at great length of the evil of their ways. Captain Walker was fined \$15 and costs, and the improvement of Lieutenant Charles Newell was continued until June 11, and a jury demanded. The other cases were continued until June 10, "If these people come here again I'll send them to the workhouse," was the final volley fired after the retreating forces by the Judge.

It is becoming apportent that Geveland has not seen the last of the Salvation Army yet. They are dolerwined to make martyrs of themselves. According to the statement of one of the sisters, they will not pay their fines, the rules of the Army not allowing them to spend money for any such purposes. They propose to go to the workhouse instead and work out their fines. The various seculous of the Army throughout the United States have been informed by telegraph and fresh reinforcements of Salvationists are expected to arrive and continue the work where the prisoners of war left off. It is understood that this programme will be carried out and repeated as often as a section of the Army gets arrested.

THE CIVIL SERVICE ACT.

BILLS TO REPEAL IT REPORTED ADVERSELY A HOUSE COMMITTEE HAS PRAISE FOR THE WORK

OF THE COMMISSION, Washington, June 7 .- In the House to-day Mr. Hoblitzell, of Maryland, from the Committee on Reform in the Civil Service, reported adversely bills to repeal the Civil Service act, and they were laid on the table. The report accompanying the bills says: "The committee have diligently investigated the workings of the Commission appointed to execute the law, and heartily recommend it for the intelligent and efficient ration of the important branch of executive administration of the important orac overnment, the power. Since the foundation of our Government, the general public mind, interested in an honest, intelligent general public mind, interested in an honest, intelligent and economical administration of public affairs, has been deeply concerned with the development of its mere political phases, growing out of the distribution of patronage in the selection of proper persons to fill the official positions designated by law to conduct its varied operations.

RESTRICTION OF PATRONAGE.

" Earnest efforts bays been made from time to time by our leading statesimen and publicists to confine within the bounds of patriotism and loyalty all party action in this direction, and to reduce to a minimum the corrupt exercise of this power-whatever party organization to the time being shall control the several executive branches of the Government-and at the same time to secure the maximum of honest and faithful service in the discharge of the sacred duties imposed by such high publie trusts. The evils of a corrupt exercise of this power of official designation have placed the leaders of all parties of to-day in an attitude condemnatory of a merpartisan system, fluctuating with the success or defeat of party, growing out of the quadrennial contests fixed by the Constitution. Grave complaints have been justly made against nearly every administration of the Govern ment, by reason of these practices of the several political parties in the distribution of official patronage, until they have grown to be designated as the spolls sys the offices of trust and responsibility adjudged to be the ripened fruits of party success, rendering these appoint ments to office the subject of factional contest, introducprinciples of intrigue and corruption to govern and control their selection, instead of the efficiency honesty and good behavior of the public official. . . .

PRAISE FOR THE COMMISSION. "Bince the organization of the Civil Service Commission great good has been accomplished in many directions, and a better feeling pervades the dominant sentiment on the subject of reform in the civil service, inspiring the hope that at no distant day the benefits of similar laws may extend throughout the several States, and by harmony and homogeneousness of sentiment and action, much of that which now contributes to the bitterness of political contests and the scandal of our free institutions shall be forever eliminated and destroyed—State and National. Your committee, entirely satisfied with the thorough and non-partisan work of the Civil Service Commission, are justified in the belief that its continu nce will aid, to a large degree, in cradicating the prevalent evils of the civil service of the Government, re move just complaint, and restore public confidence in the work performed by these subordinate officials, and can see no wisdom in the purposed repeal of the law. You committee nanimously recommend an adverse report."

THE GENERAL DEFICIENCY BILL. IT IS REPORTED TO THE HOUSE-SOME OF ITS PRO-

VISIONS. WASHINGTON, June 7 .- The General Deficiency Appropriation bill, which was reported to the House to-day, appropriates \$6,129,594. Of this amount \$143,644 is to enable the Secretary of the Navy to pay to the officers and crews of the United States naval vessels under command of Flag Officer D. G. Farragut the difference between the amount of bounty heretofore distributed and to which they are respectively emitted under the de-cree of the Supreme Court, for the destruction of the enemy's vessels near New-Orleans in April, 1862. The bill provides that fourth-class postmasters shall be paid the compensation that they received prior to March 3 of last year. Of the money appropriated for the Department of Justice, the bill provides that no part of the money shall be used to pay special counsel fees. It is further provided: "That the several accounting officers of the Treasury Department shall not receive, examine and consider any claim against the United States, unless fit shall have been filed within one year from the passage of this not, or within five years after it shall have accrued; nor unless it shall have arisen under an obligation or liability of the United States incurred by authority of law, or under some appropriation originally applicable to the pay-ment thereof, and the balance of which appropriation shall have been carried to the surplus fund. And the Socretary of the Treasury and at the commencement of each session of Congress report the zmount due each claimant, whose claim has been allowed in whole or in part, to the Speaker of the House for consideration.

"And hereafter all estimates of appropriations intended for the consideration and seeking the action of any of the committees of Congress shall be transmitted to Congress through the Secretary of the Treasury, and in no other manner."

THE CASE OF LIEUTENANT FIELD.

WASHINGTON, June 7 .- In carrying out the sentence of the court martial which tried Lieutenant E. A. Field, of the Swatara, at Port au Prince, some time ago for drunkenness. Secretary Chandler publicly reprimands that officer in a general order, and in doing so, expresses his dissatisfaction with the sentence of the court, which was a suspension for two years, with a reprimand, which was a suspension for two years, with a reprimand, add clearly states that the officer ought to have been dismissed from the service. The Secretary concludes as follows: "The Navy Department can never safely again order Lieutenant rield to the performance of sea duty; he will be an incumbrance upon the active list, and ought to resign from a high and honorable profession, the appropriate duties of which he can never be allowed to discharge except by putting in unjustifiable peril the ships and lives of the United States Navy."

GOLD AND SILVER PRODUCTION.

WASHINGTON, June 7 .- The Secretary of the Treasury has transmitted to Congress the fourth annual report of Mr. Burchard, the Director of the Mint, on the eduction of the precious metals in the United States during the calendar year 1883. The Director estimates the production for the year at, gold, \$30,000,000; silver (at its coinage rate), \$15.200,000; total, \$76,200,000; and distributes it among the States and Territories as

UNITED STATES CIRCUIT COURTS.

WASHINGTON, June 7 .- In the House on motion of Mr. Culberson, of Texas, a bill was passed amending the act to determine the jurisdiction of United States Circuit Courts and to regulate the removal of causes from State Federal Courts. The bill increases the minimum purisdiction of Circuit Courts from \$500 to \$2,000, takes away from those Courts jurisdiction of causes in favor of assignees of promissory notes and bills of exchange, and also of suits of a civil nature arising between a corpora-tion and the citizen of any State in which the corpora-tion may have been carrying on business at the time the cause of action accrued and restricts to the defendant the right to remove the cause from the State to the Federal Court.

THE ARMY AND NAVY. WASHINGTON, June 7 .- The death of General O. E. Babcock will promote Major J. M. Wilson, office of Chief of Engineers, to be Lieutenant-Colonel. THE COUNT OF THE ELECTORAL VOTE. [BY TELEGRAPH TO THE TRIBUNE.] .

Washington, June 7.-There seems to be ittle probability that any bill regulating the count of the electoral vote will be passed at this session of Congress netime ago the Senate passed the Edmunds bill, which provides that the two Houses of Congress shall meet jointly to count the vote. When it reached the House, it jointly to count the vote. When it reached the House, it was amended by Mr. Eaton so as to require the two Houses to meet in joint convention. The amendment changes the character of the original measure entirely. If the two Houses meet jointly, each House will, in the decision of any point on which they differ, act as a whole; or, in other werds one House will have just as much voice as the other. This is the Edmands plan. The one proposed by Mr. Eaton (providing for the meeting of the two Houses in Joint convention) gives each member of the two Houses a vote. Under its provisions the Democrats would just now have a large majority.

This will lead the Republican Senate to object to the amendment and there is little prospect, therefore, of the two Houses being able to agree on the question.

PRE-EMPTION AND TIMBER CULTURE LAWS. Washington, June 7 .- The House to-day began consideration of the bill repealing the Pre-emption and Timber Culture and amending the Homestead laws. Mr. Holman offered an amendment, which was adopted. repealing the act providing for the sale of desert lands in certain States and Territories.

On motion of Mr. Nelson, of Minnesota, an amendment was adopted providing that all persons who have hereto-

was adopted providing that all persons who have heretofore in good faith made settlements on the public lands
under the pre-emption laws shall be permitted to make
final proof and entry upon not exceeding 160 acres.

Mr. Holman offered an amendment, providing that no
public lands of the United States adapted to agriculture
shall be sold, except mineral lands and town sites; and all
of the public lands adapted to agriculture shall be reserved
for actual and bono-fide sottlers only, under the provisions of the homestead law, subject, however, to
county land warrants and college serip issued by authority of Congress and the grants which Congress has made
for the purpose of education.

SLOOPS IN A DRIFTING RACE. THE LARCHMONT YACHT CLUB REGATTA-NOTHING

LACKING BUT THE WIND. The Larchmont Yacht Club held the first of its pennant regatias yesterday, over the club course in the Sound. There was a large gathering of people at the Club house, and only wind was lacking to make the regatta a success. It was after 11 o'clock when the signal te start was given and the thirteen yachts got under way to cross the line. There were no first-class sloops entered and the chief interest of the race was in the performance of Dr. Barron's new sloop Atnion, which was matched against the Eclipse. The tide was one-half flood and the breze-what there was—came from the southwest. The Eclipse crossed the line a few seconds in advance of the Athlon, and for a while they sailed side by side. But Dr. Barron stood over to the Long island shore hunting for a breeze, and lost the race. Soon after starting there came almost a dead calm, and the yachts drifted on the smooth water with flapping sails. On the ran home, however, a breeze sprang up from the southwest, and by the time that the race was flatshed if was sloving a good whole sail breeze. The winners were the Eclipse, Varuna, Chemann and Fafry. The time of the race was as follows: te start was given and the thirteen yachts got under way

WHITE ELEPHANT PRIZE POETS.

The three "prize poets" among whom P. T. Barnum's \$500 is to be divided for the best metrical effusions on Toung Talong, the sacred white elephant, are Mrs. Mary E. Dwinelle, of New-York; Elbridge S. Brooks, of Brooklyn; and Joaquin Miller. Mr. Miller's stanzas are plentifully sprinkled with such expressions as Salaam! Siam, Orient, Occident, Barnum and "tri-umphant Alexanders." The last four lines of the final stanza of the piece contain one intimation that might not be pleasing to Mr. Baraum, for Mr. Miller implies that Talong is going back to Siam, and another that casts a dubious reflection on the author's own "poem," for he

You teach us much yet it were best You pack this in your trank to read To tyrants on returning East. We worship neither man nor beast,

We wership neither man nor beast.

The effusion requires a foot note to explain one allusion in it. Mr. Brooks's article on the sacred beast needs ten foot notes to explain it, and in this respect resembles a well-annotated poem by Chaucer. He speaks of Taloung familiarly as "Chang Puzk," and represents the beast as remarking, "Aku da-l bok!" THIRTY THOUSAND DOLLARS WON. EUROPEAN NOTES AND INCIDENTS.

GOSSIP FROM THE LONDON CAPITAL.

ORANGEMEN AND NATIONALISTS-INDUSTRY IN ENG-LAND-VARIOUS TOPICS. London, June 7 .- Joseph G. Biggar, the

Irish Home Rule Member of Parliament for Cavan, laughs at the fuss the Government is making over the projected rival Orange and National meetings at Newry. Ireland, to-morrow. He characterizes it as "nonsense." TRADE AND LABOR.

Thomas Burt, who represents Morpeth in the House of Commons, and who is perhaps the only true exponent of labor in that body, expressed himself freely to-day regarding the present great depression in the shipping industry in the North of England. In answer to a question regarding the coal and iron trade of Northern Ireland, Mr. Burt said that there was ot so much to complain of in that direction. The trade was fairly good, but not nearly so brisk as it usually is at this period of the year. The iron trade on the Tees was also in a bad way. The few who were at present em played worked only half-time, and eked out a miserable

MR GLADSTONE'S HEALTH IMPROVING Mr. Gladstone's week's rest at Hawarden has apparently done wonders for his health. He seems at present to be stronger and more energetic than he has been at any time for the past two years. At Hawarden the Premier spent nearly all of his day hours in riding and wood-chopping.

ENGLAND AND EGYPT.

It is apparent that the present English Government is rapidly weakening in its attitude upon the Egyptian question. It is even evident that the Ministry is now ecking some honorable line of retreat from its recently positive declaration in favor of exclusive co trol. This state of affairs is attributed to the aggressive attitude of France, which means to insist, in the coming con ference, upon a joint control. The The splendid organization and leadership of the Lib erals enable the Government to hold its own in domestic affairs, and to retain a sentimental popular respect, which is skilfully used to blind the people to the weakness of the Ministry's foreign policy. If the Conservatives had a single good leader capable of forcible expres sion, and able to organize and lead debate in the House of Commons, the Government could be easily made so appopular as to be thrown out of power on questions of reign policy alone. The recent speeches of Lord Salisbury, the leader of the Tory peers, have injured rather than helped his party.

OAKEY HALL IN LONDON,

Oakey Hall is becoming a well-known figure in political society. His lectures on the "Municipal Fallings of the City of New-York" continue to attract a great deal of attention, and, in view of the efforts now being made to reorganize the city government of the City of London, they excite no little comment. Mr. Hall expresses himself as being perfectly satisfied with his professional progress since his arrival in England. He has been received graciously by Lord Coloridge, and other notables, and is a constant and welcome visitor at the Savage Club.

RUSSIA AND ENGLAND. Much uncasiness has been caused among Government officials in London by the latest imperial utterances from St. Petersburg. This is attributed to a growing belief in Russia that England is gradually retiring from its former policy of Empire extension. Russia has formally announced that it has decided to abandon its recent intention of evacuto abandon its recent intention of evacu-ating Central Asia, and has proclaimed a determination to extend its Asiatic frontiers. This announcement contains for England a stinging threat, being coupled with the declaration that Russia believes it will be better for England to confine her energies in the East in the future within the natural boundaries of India. The Czar's advisers go to great pains to assert that Russia has no designs on India but it is impossible for Englishmen to believe that Russian statesmen are not engaged in constant intrigues in that direction. The English people, however, seem to be apathetic concerning any designs Russia may have, and the present English Government seems too absorbed in the traublesome Egyptian question to meet the new

BUSINESS EMBARRASSMENT.

The failure of Simeon Charles Hadley, Alderman for the Castle Baynard Ward, of London, and one of the ear-lier promotest of the Commercial (Mackey-Bennett Cable Company, was announced this afternoon. The aunonneement has not caused much surprise, as it has been generally understood for some time that he was in a e time that he was on the brink of a crisis when he rejected the Mayoralty. Mr. Hadley was, however, a great run in the Savage Club, and a warm friend of Henry

INSANITY OF BERNAED LOFFLER.

Bernard Loffer, the German-American horse dentist who recently horse whipped " Plunger " Walton, has been adjudged insane. He was used as an instrument by an anti-Walton ring of turfmen, headed, it is said, by Sir John Astley. He has ever since his light with the Plunger" been hotly [persecuted, it is alleged, by Walton's friends. It was ascertained that the horse doctor's domestic relations were unhappy. In a fit of rage the other day he [threatened to murder his whole family and commit suicide. Sir John Astley, who has taken a great interest in the case, has started a subscription for the senciit of the lunatie's family. DEALINGS IN AMERICAN SECURITIES.

On the London Stock Exchange there is little busines doing in American securities. A leading broker, on being questioned to-day regarding the outlook for the American market, said that New-York Central would un toubtedly declare its usual dividend, but that information concerning the traffic of the froad, and on other im portant points, was undoubtedly being withheld. This was also the case with nearly all the other stocks which were quoted in London, and it created an unfortunate want of confidence and consequent depresions for which the Americans themselves were responsible. American onesty, he said, is doubted, and this unfortunate state of affairs will surely continue as long as cliques, and in dividuals are allowed to manage secretly the roads for nterests entirely selfish and personal.

A HOSPITAL PATIENT SENTENCED. An extraordinary sentence has been passed upon the semi-lumatic, Weissinauer, in Vienna. While a patient recently in one of the Vienna hospitals, came unmanageable, broke away from his attendants, smashed a crucifix and trampled upon its fragments, and bitterly cursed the hospital officials. He was tried and envicted on a charge of blasphemy, and has been senenced to nine years penal servitude

DISCOVERY OF VALUABLE VEGETABLE FIBRE. Certain Russian inaturalists claim to have made a dis-covery in reference to the epilonium plant which may evolutionize the cotton trade of Europe. The epilobium which, is more popularly known as the," willow herb, rom the shape of its leaves, has hitherto been cultivated solely for its flower, which grows from the top of the pod. The Russian savants now claim that this ood can be made to yield a fibre possessing many of the valuable qualities of cotton fibre. In the experiments already nade, this fibre has been ginned, spun and woven suc-essfully on a small scale. An economic society in St Petersburg has now petitioned the Czar to set aside som State lands for the scientific cultivation of plicobium and the continuation of the experiments for improving the fibre. It is claimed by some enthuslasts that the result of this discovery will be in time to avert the necessity for the importation of cotton into Eussia.

THEATRICAL. Miss Mary Anderson concluded her provincial tour, which has been phenomenally successful, at Birmingham this evening. She is to start for Italy next week for a few weeks of rest and recreation before reappearing at the Lycoum Theatre early in September. During her Italian tour she intends to make a visit to Verona, in order to gather fresh inspiration from the home of the Montagues and Capulets, and studies of scenery and Italian life, with a view of heightening the realism of her impersonation of Juliet. Her first appearance at the Lyocum will be in the character of Galatea, with Mr. Terriss as Pygmalion. Immediately upon the with-drawal of that play it will be succeeded by a revival of Romeo and Juliet," on a scale which is promised to be mequalled for grandeur, even in London. The cast will include Miss Anderson as Juliet, Mr. Terriss as Romeo, and Mrs. Sterling as the Nurse.

A PRACTICAL UNION OF THE BANKERS AND MER-CHANTS' AND THE POSTAL.

It was announced yesterday that a practical onsolidation of the Bankers and Merchants' with the Postal Telegraph Company had been arranged. Henry ummins, second vice-president of the Postal Company, said that the agreement was merely a pooling arrange ment under which the two systems would be operated by a joint management. He authorized the following official

a joint management. He authorized the following official statement:

The Bankers and Merchants' Telegraph Company and the Postal Telegraph and Cable Company have united together with a view to harmony of action and reduction of expenses, and hereafter the two companies will be conducted under one management. The union of these two companies brings under one control about 9,000 miles of pole lines and about 55,000 miles of wire now completed and in operation, and there will soon be completed 3,000 miles more of pole line and 21,000 miles of wire now completed and in operation, and there will soon be completed 3,000 miles more of pole line and 21,000 miles additional wire, making a total of 12,000 miles of pole line and 76,000 miles arrangement three lines between New-York and Boston; three lines between New-York Philadelpina, Ealtimore and Washington; three lines between Chicago and St. Louis; one line from Chicago to St. Paul and Minneapolis; one line from St. Louis to Kansas City and omaha; a main line from Washington to New-Orleans through Richmond, Augusta, Atlanta and Montgomery, and also a line extending from Richmond to Norfolk, and from Columbus to Charleston, and from Augusta to Savannah; and a second line to Atlanta by way of Cluciniati. Louisville, Nashville and Chattanooga.

One Chicago line runs directly by way of Binghamton, Elmira, and Cheveland; another by way of Hirsburg, Columbus, Clincinati and Terre Haute; and two lines between Bulfalo and Pittsburg through the oil regions; two lines to Toledo from the main Chicago lines, and a line to Detroit. One line to Boston is by way of New-Haven and Providence; another by way of Hartford and another by way of Albany, and as second line from Richmond by way of Linehburg to Augusta, and a large number of local lines in Pennsylvania, New-York, Massachusetts and other localities.

This combination also includes a complete stock quotation or ticker system, nowifu operation in this system

vania, New-York, Massachusetts and other localities. This combination also includes a complete stock quotation or ticker system, nowl in operation in this system, the McDonough; being recently granted priority of invention by the Patent Office over the Beli-the whole forming a complete system of land lines and necessary adjuncts, which will be operated in connection with the Bennett-Mackay occan cables.

In this arrangement between the two companies, neither assumes or becomes responsible for the fixed lia-

billities of the other, but their joint control and management will be composed of the best talent and the financial strength of both companies. The expense of operating will be reduced as nearly as possible to the cost of running one company, while the business will be extended to the fullest capacity of the united lines and run with the greatest possible commony. And, masmuch as these lines reach at least 80 per cent of all the paying telegraph business of the country, and as allied with the great Atlantic cable system of the Commercial Cable Company, having connections throughout Europe, they cannot fail to be maintained on a divident paying basis. It is the purpose of the united company to secure to the country cheap and reliable telegraphy, and to relieve the public from the present onerous and exorbitant charges now mearined upon telegraphic, telephonic, and quotation business.

In accordance with the agreement the Postal Teleraph Company has been given control of the direction of the Bankers and Merchants' Company.

DR. POTTER TEACHES BROTHERLY LOVE. rather shaky financial condition. It was well known at HIS PLANS OF HELPING THE POORLY PAID EPIS-COPAL CLERGYMEN.

"It has been a subject of much carnest thought how properly to meet the pressing individual demands of the majority of the clergy of our church," said Assistant Bishop, Potter yesterday in referring to his propositions for the equalization of ministers' salaries. "In cities like this," he continued, "people can scarcely form a proper ides on the subject, for every congregation has drawn into it men of wealth, and has been the object of endowments, and naturally has a larger local yearly income than a church with even more attendants in the country. The city clergy are better paid than those in the country, and the missionaries are worse off than the country ministers. The cases of actual want in the latter classes renumerous. In the presumably rich Protestant Epis-copal Church the average salary last year was about \$600. There are probably 500 bishops and cleraymen in the United States whose appual incomes are \$3,000 each in the United States whose annual mechanisms of core. To assess them only 2-per cent would produce \$62,500. MYSTERIOUS DEATH OF A EROKER. Charles C. Mish, a real estate broker who occupied part of an office at 171 Broadway, was found yesterday lying on a sofa and suffering great pain. A doctor was called, but before he arrived Mr. Mish died. Coroner Kennedy gave a permit for the body to be taken to an undertaker's shop. After a thorough search a glass containing water and a white powder was found in a drawer, which led to a suspicion of suicide and au au-topsy will be held. The physician was uncertain whether death was due to heart disease or poisoning, Mr. Mish came from Philadelphia not long age, and it is said that he recently lost heavily in speculation. He leaves a wife and several children. The burial will take place in Phil-adelphia.

DESTROYING TRAP NETS IN THE HUDSON. Hudson, June 7 .- Mr. Matthew Kennedy, State Game and Fish Protector, assisted by Fred Mather, of the New York Fian Commission, and Deputy-Sheriff Hallenbeck, captured and destroyed nine pounds of trap rests in the Hudson River between Rhinebeck and Tivoli yesterday. These nets are destructive to the fishing, and their use on the Hudson is illegal. They cost from \$200 to \$400 each, and were all new. The fishermen were surprised, but offered no resistance. They are liable to 2 line of \$400 for using these nets.

UTICA, June 7 .- David Weaver, aged sixty, comfortable circumstances, married and having four children, was found dead yesterday near Charles Maydole's barn, at Steuben Corners, in the northern part of Oneida County. Late last night it was developed that Weaver had been intimate with the wife of Richard Jones, a neighbor, for some time. Weaver left his home on Thursday about 10 p. m. It is supposed that he went to Jones's house, and that the latter shot him. The bullet passed from his neck to his brain. At the inquest Jones proved an alibi. Suspicion now rests upon Jones's wife. No arrests have been made.

HOUSES INJURED BY A BLAST.

THIRD-ST.

Workmen in the employ of T. Farley & Son have been engaged for weeks in removing a ledge of rocks on the southwest corner Ninth-ave. and Seventy-third-st. On the north side of the street west of the avenue is a row of houses of recent construction, owned by the Clark estate. The houses wary in height alternately and their fronts are constructed of light sandstone and Philadelphia brick At 3:30 p. m. yesterday the houses were shaken by a blast set off about thirty feet from the avenue. Following the roar of the explosion were heard the sounds of breaking glass and of fragments of rock strik-ing against the fronts of the houses. No. 403 is occupied by C. A. Miller, an agent of the Singer Sewing Machine Company. When the blast was set of, Mrs. Miller and her children were out. Her mother and a servant were in the house. Several fragments of rock were hurled into the parlor through the front window, some of them weighing as much as fifty pounds. They broke the floor where they fell, but did not go through to the basement. The entire window casing, as well as the glass, was thrown into the parlor. There was little furni-

glass, was thrown into the parlor. There was little furniture in the parlor.

No. 405 is occupied by Thomas Griffin, of No. 749 Eroadway. In the parlor of his home were huried about twenty fragments of rock weighing from fifteen to fifty pounds each, along with many smaller pieces, and about haif a poek of gravel. The carpet was forn and the floor was broken in several places. A large hand-painted Dresden vase was shattered, twenty feet from the window. Several other articles were destroyed, and most of the furniture was soratched or broken. The window was completely demolished. Mr. Griffin's daughter was the only person in the house and she was in an upper room. Five minutes before she was seated at the front parlor window with a visitor. The dausage in the parlor was estimated at about \$500. The front door and parlor window of No. 407, occupied by Joseph Mayer, were broken also, but little damage was done inside the house. Pieces were knocked out of the stones and bricks in the fronts of all three houses. The damage to them was not less than \$600.

Thomas Morrissey, who superintended the blast, said he could not account for the accident. The blast, he said, was probably covered by a rait of heavy logs bound together with chains. The amount of powder used was not excessive, and the holes were drilled with the design of displacing the rock in a direction epposite to the houses across the street.

BITS OF COURT NEWS.

Judge Coxe yesterday ordered a new trial in the action of Almira R. Clare against the Providence and Stonington Steamboat Company. Mrs. Clare brought a suit in the United States Circuit Court to recover damages for the loss of her husband, Charles C. Clare, who was killed on the steamer Narragansett in June 1880, when a collision occurred between the Stonington and the Navragansett. A verdiet lwas given for the defendant, The Judge decides that the section of the Revised Statutes, requiring steam vessels to go at a moderate speed in a fog means that the speed of the vessel shall be educed to less than the ordinary speed. Many of the ound steamers have been in the habit of going at the ame rate of speed in a fog as in clear weather. The Stonington at the time of the collision, was going at the

Stonington at the time of the collision, was going at the usual rate of from 12 to 13 miles an hour, and Judge Coxe says that the law was not complied with.

Judge Wallace, of the United States Circuit Court, yesterday rendered an opinion denying the petition of the plantift in the suit of the Land Company of New-Mexico dimiteds, an English corporation, against Stephen B. Elkins, Benjamin F. Butler and James Smoot. Elkins, Smoot and others purchased the Mora grant of several hundred thousand acres in New-Mexico, the title being taken in the name of Elkins, and Smoot having a fifth interest. The plaintiffs allege that is moot's interest was sold to them, and afterward conveyed by Smoot to General Butler without recognition of the previous sale. The Judge denies the request that Elkins be required to give the plaintiffs a deed and that the defendants be restrained from selling the property.

A DULL REAL ESTATE MARKET. The real estate market was devoid of feature

last week. The postponement of the sale of John H. Deane's property, which had been announced for Wednesday, was a great disappointment to the many people who attended the auction salescooms in the hope fol ing up good bargains. The sale is set for next Thursday, of the generous laity, but the best and find step could not be reached until we had accumulated a permanent fund toor assisting poor clergymen.

"The Methodist plan in tanada is admirable in one respect—the fund for superannated ministers—but the prime want, in my opinion, is to look after the young and poor of our clergy, someting like the Seotish Susteaties are added in supporting their ministers besotish Susteaties are added in supporting their ministers by appropriations which are arranged upon a scale graduated according to the contributions of the people. For instance, we could say to one church, your raise \$790, we will give you \$250, or if you raise \$790, we will give you \$250, or if you raise \$790, we will give you \$250, or if the bester paid members of the clergy fall readily into your new plan!"

"The question is to be discussed at our Church Congresh October. I mustacknowledge, however, that of all classes in seclety, the clergy seem to have least of what is called among men of the world esprit du corps, and a cynteal man of letters once remarked that when clergy men set about discussing once of their own order it generally amounted to an invitation to view the remains."
